

Technical Specification

Multi- Fiber Decortivating Machine

Engine: 8 HP Horizontal water cooled diesel engine

Mobile with towing bar and 3 telescopic leg

Chassis and Frame: 3"x 1 1/2 x 3/16 chanel for chassis, 2" x 2
"x5mm angel bar for frame.

Overall Dimensions: (LWH) 2030mm (L) x 1570mm (W) x 1200 mm (H)

Decortivating Drum: 470 mm ø x 600mm L, 18 decortivating blades
(38mm x 38 mm x 6.35 (Thick) angel bar
bolted and welded dynamically balance.

with manual automotive disc brake and drive pulley tensioner safety mechanism.

Weight: Approximately 360kg

Labor Requirements : 2 persons

Capacity : 70-90kg/HR input based on pineapple leaves
with appropriate brand new pneumatic tires painted with
primer and top loat colored. As per required
